**The Fall Black Infant Health Healthy Baby Celebration at the Carousel Mall**

The County of San Bernardino Department of Public Health, Maternal Health Section Black Infant Health Project announces its Annual Fall Healthy Baby Celebration. This event will take place November 10, 2005 from 12:00 noon to 3:00 p.m. at the Carousel Mall, 295 Carousel Mall, San Bernardino, CA.

Planned are many interesting activities for this celebration. Activities will include a children's coloring contest, a petting zoo, a photo booth for children, door prizes, carousel ride for activity winners, and health information for your families. Family and friends are invited to enjoy the unique entertainment provided by FAME, original African American Folk Dancers.

The Black Infant Health Project goal is to reduce the number of deaths of Black babies in San Bernardino County. By combining intervention and health strategies, the overall well being of at-risk African American women and their babies can be improved. The hard work would not be complete without help from individuals and the community. As the African proverb once stated, "It takes an entire tribe to raise a child." Your help is needed in improving birth and child health outcomes of today's children.

For more information, please call 1-800-227-3034 and ask for Black Infant Health.
